APPLYING FOR A JOB: CVs/Résumés and Portfolios

1. Course objectives | UE 3.6 - C6.AC4

UE 3.6 | Compétence 6

Situer son rôle et ses missions au sein d'une équipe informatique

AC4. Apprentissage critique #4

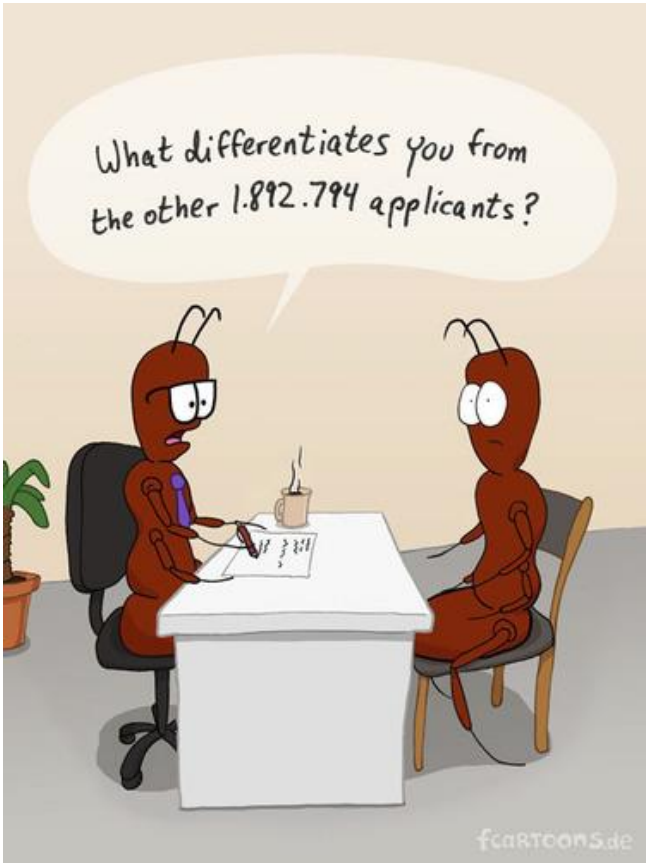

Rendre compte de son activité professionnelle

This course aims at using professional English to apply for a job

Assessment C6.A2.AC4: **CV and Portfolio**

2. Skills

Watch the video HEROES_WANTED_--_Join_the_Assassin_s_Creed_team.flv
What skills does the company Ubisoft expect?

List your own skills (taught at the IUT and self-taught) as accurately as possible

Technical (computer-related) skills	**General and organizational skills** (choose 3 or 4 that match your personality)
Programming: Software/tools:	Personal/General/Soft skills:

See end of booklet for examples

3. CV Content

Designing a resume /CV is showing the employer you definitely fit the job ad and meet his/her requirements.

For a specific industry such as IT, the rubrics of a resume will pretty much be the same for a job ad or another. Still, the content of each rubric will have to match the ad.

BRAINSTORMING What will you mention in a resume? What rubrics are typical of CVs in English?

FEED BACK on the INFORMATIVE CONTENT (no graphic design for the moment => see later)

Personal data: First Name + last name

Date of birth: 5 Feb 1989 / Feb.5, 1989
Nationality
Address: _____, France
Phone #: +33(0)_____
Email: (make sure it sounds professional!!!)
LinkedIn, driving license…
Pic is not mandatory and forbidden outside Europe

Job Objective:

A written paragraph expressing who you are (studies), your main strengths, what type of job you are looking for (e.g. the one of the ad) and why (no contraction, very formal).

⇨ **On top of your resume**

Work experiences:

Dates — **Company name (activity, size)** – Town, country
Missions: **Design-ed/ing the company website with Wordpress and C#** *+ link to the project*

Dates — **University** – Town, country: Team university project
(mention SAÉ !!!) **Designing...** *+ link to the project*

Dates — **Sports Association name** – Town, country:
Mission: **organizing an event** (explain your tasks)

⇨ **Central position / in reverse chronological order**
⇨ **Do not write if not accurate (e.g: 'working at a chemist's for one week' is not relevant and cannot be checked by the recruiter)**

Technical skills:

Focus on your own computer skills / job-related skills:

Detail O.S., software, languages and activities

Operating systems: familiar with windows, Apple OS and Linux environments
Designing object-oriented applications with JAVA and VB.Net
Designing purely procedural applications with C language
Designing dynamic webpages using CSS, HTML and PHP
Designing software architecture with UML and MERISE
Creating and communicating with a database via SQL language (ORACLE, PostgreSQL and MySQL)
Administrating and managing Databases
Using Windowsockets and TCP/IP networking protocols

Mention Levels and scale: candy bars (or stars)

Languages:

French: native speaker / mother tongue
Level: B1/B2; intermediate, upper intermediate, expert/fluent

Soft skills:

See next page

Education and Qualifications:

in reverse chronological order / DO NOT TRANSLATE: always give the French name and then explain it.

Dates — **BUT Informatique (Technical Bachelor's Degree in computer science)**
3-year undergraduate diploma – Second year in progress
University of Savoy / IUT Annecy – Annecy-le-Vieux, France

Dates — **French Baccalaureate SSI (High School diploma specialized in science and computer engineering) with (high) honors**
Baudelaire High school – Annecy, France

Miscellaneous:

Interests / hobbies but detailed (not just 'soccer': club? How long? Level?)
BAFA (diploma taken to be a children's camp instructor).

See next pages

2 References:

2 people: Name, position, company – town, country:
email/phone number +33(0)_____

⇨ **Bottom of the resume**

Help box: Soft/Personal skills:
Help yourself with the following toolbox to define your soft skills.

If you...	Say this...
...get good grades and participate in school activities...	I manage my time well and can concentrate on multiple projects at once.
...like to come up with your own ideas and follow-through to the completion of the job without a lot of supervision...	I am self-directed and able to take initiative.
...borrow things, whether your parents' cell phone or a friend's CD, you always return them on time and in good condition...	I am responsible and considerate.
...always hand your assignments in on time and never keep people waiting...	I have good time management skills and am punctual.
...have babysitting experience and have been given a lot of responsibility at home...	I am trustworthy and appreciate the importance of responsibility.
...like to make a personal statement with your fashion and style...	I am innovative, dynamic and confident.
...are confident speaking with your group of friends and in front of a large crowd...	I am self-assured and have excellent presentation ability. I enjoy speaking in public.
...love books and read everything you can get your hands on...	I love reading and learning new things.
...enjoy the company of people from many different groups of society...	I interact well with diverse cultures.
...are athletic and focus a lot of time and effort on sports or training...	I am very task-oriented and focused.
...excel at math and feel comfortable working with numbers...	I am precise and analytical.
...enjoy camping and wilderness activities...	I am adaptable and self-sufficient.
...keep your personal possessions tidy and organized, with systems that you designed...	I am orderly, methodical and have strong organizational skills.

If you are tight in space, just select a **few adjectives**!

- Useful link: http://jobsearch.about.com/od/skills/fl/personal-skills-list.htm

Help Box: Jobs, missions and special qualifications:

Always give the name of the shop/company and its location!!

►Potential useful words:

- work as a… / be in charge of… / be responsible for…
- BAFA: diploma taken to be a children's camp instructor
- Formation secouriste: first aid certificate */ Firemen* first aid and rescue certificate
- Formation pompier: Fire hazards prevention */ firemen certificate)*
- Permis poids lourds: Heavy trucks all roads driver
- Avec mention (AB, B) = with honours
- Avec mention TB = with high honours
- Surveillant de baignade: Swimming and lifesaving *certificate / Pool lifeguard*
- colonie: village camp / summer camp
- animateur: instructor
- centre aéré: open-air camp
- travail en interim: temporary work
- encadrer (des enfants) : supervising and instructing
- encadrer une équipe : managing a team ; team management
- soutien scolaire (en maths): (maths) remedial classes
- agent d'entretien: cleaner operative
- agent de maintenance: maintenance technician
- agent hospitalier: hospital worker
- technician municipal: town hall service technician
- agent commercial: sales representative / sales agent
- employé chargé de l'entretien (espaces verts,…): (gardens) maintenance man
- manutention: handling
- manutentionnaire: warehouseman
- magasinier: packer
- BTP: construction worker / building and public worker
- ouvrier décolletage: technical industrial worker
- contrôleur: superviseur
- fraiseur: milling machine worker / cutting worker
- machiniste: machine operator
- caissière de supermarché: check-out operator
- manoeuvre: laborer
- cariste: fork-lift truck driver

►Equivalences

Toujours citer le diplôme français puis donner une équivalence si elle existe ou l'expliquer.

BUT	Bachelor's Degree of Technology
L3	Bachelor's degree
Master	Master's degree

Pour les autres formations (Bac, DUT), il n'existe pas d'équivalence exacte de diplômes : citer le diplôme français et expliquer ce à quoi il correspond.

Attention : le Baccalaureate est un Bachelor au Canada et en Suisse. Donc bien préciser « French Baccalaureate » et expliquer (high school diploma…)

International CVs also work for French-speaking countries outside France! (Switzerland, Belgium, Quebec…)
=> https://www.travailler-en-suisse.ch/emploi-suisse/dossier-candidature/cv-suisse/differences-cv-suisse-cv-francais

4. CV Graphic Design

One of the biggest challenges when designing a resume is to make all the pieces of information fit in an A4 page. The easiest way then is to design an online website and portfolio. Still a printable and downloadable A4 format has to be available on your website.

Get ideas from online templates but avoid them as it has become very common to find 2 similar layouts for 2 different applicants.

Make sure the layout and colours match your personality! You do not HAVE to be eccentric! Do not multiply colours. 1 page or online portfolios are preferable. 2 full pages accepted when years of experience.

Avoid empty spaces => organize your topics in columns, for example.
Beware: English punctuation (no space before ?;:!)

If you have no clue about fonts or layout trends, be classic or get inspiration from online documents!

See examples (not 100% correct) by former students next pages.

TECH. SKILLS

- Designing object-oriented applications
  C#
- Designing dynamic webpages
  CSS, HTML, PHP, JS
- Designing software architecture
  UML, Merise
- Creating and communicating with a database
  PostgreSQL
- Administrating and managing databases
- Using Window sockets and IP networking protocols

SOFT SKILLS

- Great team spirit
- Punctual
- Good management skills
- Curious
- Methodical

LANGUAGES

- **French** (native speaker)
- **English** (upper intermediate, B2)
- **German** (elementary, A2)

IT Student

JOB OBJECTIVE

I am completing my third year of a Computer Science Bachelor's Degree at IUT Annecy, France. I am **methodical**, **diligent**, and a **strong team player**, with experience in collaborative projects using **Scrum**. I am seeking an **internship** to enhance my **technical skills** and gain hands-on experience while contributing to innovative projects.

EXPERIENCES

University Project — Sep 2025 - Oct 2025

University of Savoy I Annecy-le-Vieux, France

I collaborated in a 3-member team to develop a **Flask**-based application. Tasks involved training **neural network models** and implementing mathematical algorithms such as the **sliding window** technique to **optimize** model training.

Frontend Developer - Internship — Apr 2025 - Jun 2025

HEVA (4 employees) I Genève, Switzerland

I collaborated in a 4-member team to design a website using **Next.js**. Tasks included conducting **benchmarking** studies and **advising** on modern web trends to enhance user experience and functionality. This experience helped me develop **teamwork** and strategic **analysis** skills.

University Project — Oct 2024 - Jan 2025

University of Savoy I Annecy-le-Vieux, France

I collaborated in a 5-member team to build a **Laravel**-based website. Tasks involved **MERISE** and **BPMN** diagram creation, **cryptography**, **legal compliance**, site communication, and **POWER BI** graphics. I acquired teamwork skills using **Scrum** methodology.

EDUCATION

BUT Informatique — 2023 - 2026

Technical Bachelor's Degree in computer science

3-year undergraduate diploma – Third year in progress
University of Savoy / IUT Annecy – Annecy-le-Vieux, France

French Baccalaureate STI2D — 2020 - 2023

High School diploma specialized in science and sustainable development with (high) honors

Louis Armand High school – Chambéry, France

MISCELLANEOUS

Reading — 2024 - Today

Passionate about Webnovels, I prefer the "fantasy" genre and my favorite novel is "Shadow Slave" by Guiltythree.

Badminton — 2015 - 2019

Practiced in a voluntary association in Saint-Jean-de-Couz (France), intermediate level.

WORK EXPERIENCES

Web Development School Project *Oct 2022 - Jan 2023*

University of Savoy / IUT Annecy – Annecy-le-Vieux, France

Collaborated in a 4-member team to build a Laravel-based website. Tasks involved MERISE and BPMN diagram creation, cryptography, legal compliance, site communication, and POWER BI graphics. Acquired teamwork skills using Scrum methodology.

Website Designer *Feb 2023*

rpilates.net

I designed a website for an indivual with wordpress. I took care of the website's infrastructure and deployment, focusing solely on technical aspects and the online setup, without involvement in the content.

Camp Instructor *Summer 2022 - 2023*

Francas du Jura - France

I was responsible, in collaboration with two other camp instructor, for supervising a group of 25 to 30 children aged 7 to 13 during five-day camping trips.

Soccer Coach *Season 2021 - 2022*

FCCG - Gex, France

I was the coach of a youth team, aged 7, at the FCCG football club. I was responsible for conducting training sessions or tournaments once a week.

INTERESTS

- 10 years of soccer at FCCG at regional level
- Coding personal web or game projects

EDUCATION (AND QUALIFICATIONS)

BUT Informatique *2022 - 2024*

Technical Bachelor's Degree in computer science
University of Savoy / IUT Annecy – Annecy-le-Vieux, France

French General Baccalaureate with honors *2020 - 2022*

High School diploma with a specialization in computer science and mathematics
Florimont High school – Geneva, Switzerland

BAFA *2023*

Diploma taken to be a children's camp instructor

5. Website + Portfolio

In an effective portfolio, the following are expected:

a) Including a pic of yourself (not mandatory)

It's nice to see who you might be working with. Including a picture lets employers to put a face to your name and work, and feel at ease that they know who you are. It doesn't have to be as big as this one; a small, casual profile shot on your about page works too.

b) Content

1) Include a concise descriptive sentence is a great way to give visitors that are quickly scanning through your site a clear explanation of who you are, without requiring them to read through a lot of content to find out.
2) All the content of the CV should be repeated somewhere, but not necessarily with the same hierarchy as the CV
3) portfolio: your projects (presented in a very different way from the work experience part) : tiles with pics, links if applicable, and tech info (languages, group or individual work, context, objectives, key features…).

c) Providing a quick route to your work/portfolio

Visitors come to a portfolio site to find work examples. Giving them an easy path to your work will get them there quickly.

d) Portfolio: Put your best work front and center.

Portfolio is not necessarily antichronological (contrary to work experience)

e) Portfolio: Highlight your best writing when presenting your work

f) Portfolio: Include links to sites that you're active on

g) Portfolio: show your work visually, with tiles and pop-up windows for example

h) Tip: Including unpaid work is awesome

i) Highlight your online footprint

Whether it's writing for online magazines, answering questions on Stack Overflow, or discussing programming on technology specific forums. It's worth including links to anywhere online that you're creating awesome artifacts of your work/knowledge. You can add a blog page to your website for instance.

j) Include a PDF resume download button– mandatory!

For employers who still like printing things.

k) Include your website (tech info, etc) in your portfolio

Remember: You don't need paid work to have a great portfolio

Increase the depth of your portfolio with relevant side projects (SAÉ)
Portfolio projects don't need to be completed

6. EVALUATION

6.1. Tips

Don't forget to include a button to download your PDF CV/Resume!

Luc Damas : « Portfolio à déposer dans le dossier "~/public_html/portfolio" sur le serveur OVH (51.83.36.122).

Aspects techniques évalués : CSS+JS. Pas de CMS ni framework back. »

6.2. Recap:

PORTFOLIO

Part1 – Resume : same info as in your PDF CV but can be less formal and presented differently (not necessarily the same rubrics)

- Name + About me + pic is OK
- Tech Skills
- Soft skills
- Languages
- Experiences (with a focus on companies and skills gained in missions) including SAÉs, in reverse chronological order
- Education
- References (x2)
- Hobbies / interests / blog
- Contact me box or personal data

A button to display (and then download) PDF CV

Part2 – Portfolio: tiles with every IT project (completed or not)

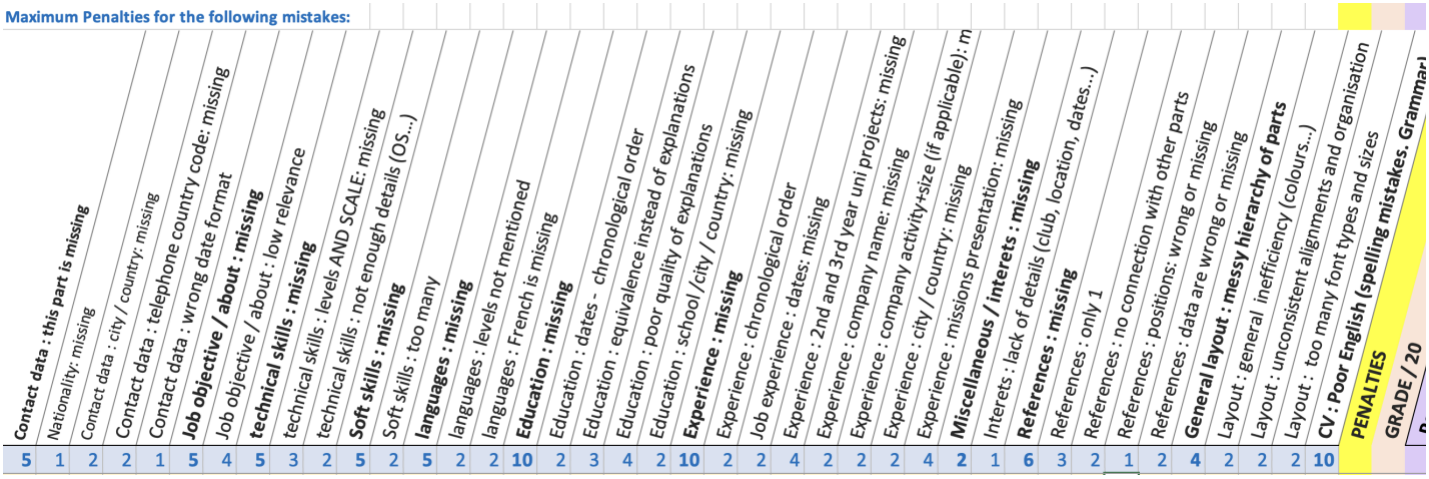

- Focus on each project (and not on in-company experience): give details (dates, context, what did YOU do, technologies, project management organisation, link and/or screenshot
- Filters by technology

PDF CV

- Name
- Personal data + optional Picture
- Tech Skills
- Soft skills
- Languages
- Experiences (with a focus on companies and skills gained in missions) including SAÉs, in reverse chronological order. Give links if accessible.Short description of missions and technologies used.
- Education
- References (x2)
- Hobbies / interests / blog

6.3. Assessment Grids

1- A **PDF CV** including **links** to your works or github to be finished by week 42. **Penalties applied!**

2. A website + portfolio (displaying your works with visuals and explanations: context, techno… see Tips) | **To be turned in at the end of week 48**

7. Cover Letters / Application e-Mails

See next page for tips to help you write a cover letter if you are looking for an internship abroad.

Tool box 1: missions

- **I am responsible for… (+ noun or V-ing)**
- **I am in charge of… (+ noun or V-ing)**
- **I have been asked to… (*do)***
- **My job consists in…(+ V-ing)**
- **My mission is based on … (+ noun or V-ing)**
- **This project will allow the company to… (*do)***
- **It will enable us to … (*perform)***
- **It will help us … (*do)***

Tool box 2: link words

- **First, …. / then, ….**
- **also (adverb)**
- **Besides, moreover**
- **This is why (I've been asked to…)**
- **sometimes (adverb) / from time to time**
- **Finally**

If you don't know the name of the person

Dear Sir/Madam
Dear Mr. *(Mrs. Ms.)* Smith

8 March 2010 (UK)
March 8, 2010 (US)

Date in full

No indent / tabulation

Opening Paragraph: State why you are writing; name the position or type of work for which you are applying. You may want to mention how you became aware of the opening and/or the organization. Show **your** interest in the company (do not tell them what they already know about the company!) and the job
NB: Semester abroad: show your interest in the courses (be accurate), not only in the landscape and culture. You're not going to do tourism or merely learn English!

Set clear straight margins

Middle Paragraph(s): Motivation: Explain your reasons for wanting this type of work. If you have had relevant work experience or education, point these out, but do not reiterate your entire resume. **Emphasize skills or abilities you have that relate to the job for which you are applying: what can you bring to the company?** Do this in a confident manner and remember that the reader will view your letter of application as an example of your writing skills. Do not tell the story of your life, but give accurate technical and personal skills. Do not say you will learn technical skills…
NB: Semester abroad: detail your skills and/or the courses you've been attending at the IUT.

Closing Paragraph: You may refer the reader to your enclosed resume (which gives a summary of your qualifications), or whatever material you are using to illustrate your training, interests, and experience. Detail one experience and say why it is relevant for the job. Have an appropriate closing to pave the way for an interview.
NB: Semester abroad: explain what the course you apply for is going to bring you; show a good adaptability (good level in English). Prove them you will pass your exams successfully!

I look forward to hearing from you.

Mr. Larry Villeneuve
Mediasoft Telecom
999 Hud Street
Ottawa, Ontario JSJ 7Y7

March 11, 2020

Dear Mr. Villeneuve,

Mediasoft Telecom's focus on computer solutions and software development for small businesses nation-wide is of particular interest to me as I am eager to experience the challenge of working on a variety of distinct projects. Computer Telephony and Web Applications is a dynamic and growing industry I would very much like to be a part of. Therefore, I am applying for the position of Analyst/Programmer at Mediasoft Telecom as advertised at Concordia University's Career and Placement Service.

Currently, I am completing the final year of a bachelor's degree in Computer Science at Concordia University. My academic experience has provided me with the necessary tools to become an effective analyst/programmer. Through the design and implementation of several projects— completed in both individual and group environments— I have become proficient in programming, using Visual Basic, C, C++, GUI, Java, as well as Windows NT 4.0. Furthermore, my position as Programmer Analyst with Merck Frosst Canada supplied experience in a fast-paced business setting; and as a Service Technician in China, I developed problem-solving skills and gained an essential understanding of general hardware components.

I am well aware of Mediasoft Telecom's commitment to excellence in customer service. My experience as a Customer Service Representative has helped me to fully develop my interpersonal skills. I have also provided customers with technical support both as a Programmer Analyst and as a Service Technician. All these experiences have allowed me to foster an aptitude for strong analytical reasoning.

My academic and professional background has provided me with a solid foundation for a future at Mediasoft Telecom. Should you have any questions or concerns regarding my resume, please contact me at (514) 848-7345 or jyemin@hotmail.com.

Thank you very much for your time and consideration. I look forward to hearing from you.

Yours sincerely,

Jen Yemin

8. Job interviews

Watch the video *6-The_Pursuit_Of_Happyness-Internship_Interview_.mp4*

- **Scene Set-Up:** After getting arrested while painting his home and forced to spend the night in jail for unpaid parking tickets, Chris has no choice but to run straight to his prestigious interview in dirty plain clothes.

- **Discuss what is necessary to prepare for a job interview and increase chances of being successful.**

    - **T***he 5 C's of an ideal candidate: Capable, Confident, Convincing, Comfortable, Concise).*
    - ⇨ *7-The_Pursuit_Of_Happyness-Internship_Interview_.mp4:* tell which of the five C's he has and how he shows them, as well as what disadvantages he has. Do you think he gets the job?

    - *Ask questions to the employer (prepare ahead of time but also questions directly related to what has been said in the interview)*

    - *Body language and presentation*
    - ⇨ Optional: Watch *7-How to act in an interview.mp4*

How to prepare for an interview

10 Commonly Asked Interview Questions and Tips on How to Answer:

1. **Tell me about yourself.**

   Talk about a couple of your key achievements and the interviewer will likely select an accomplishment and ask you to tell more about it.

2. **What is your greatest strength?**

   Figure out what your number one strength or skill is, then talk briefly about it and provide a good example. Before going into an interview, write down several of your top strengths and examples of each.

3. **Can you describe a situation in your past where you learned from a mistake?**

   The best mistakes to share are those from which you learned something. Use your mistakes to show how you have matured and grown.

4. **What is the most difficult situation you have ever faced?**

   Pick an example in which you successfully resolved a tough situation. Tell your story briefly but try to reveal as many good qualities as possible. Your interviewer wants to hear about qualities such as perseverance, good judgment and maturity.

5. **Is there anything you would like to improve about yourself?**

   Pick a weakness (for example, not being comfortable with public speaking or even oral presentations in the class), then show how you're working to improve it (being part of a debating team). Your goal here is to provide a short answer that satisfies the interviewer.

6. **What is the most important thing you are looking for in a job?**

   Figure out what you want most in a job. You might value challenge, good working conditions, or friendly co-workers. Talk about one or two items and explain why they are important to you.

7. **What are your career goals?**

   The interviewer likes to see if you are a person that plans your future and if you might be someone that would meet the company's needs after you finish school. Your task is to talk about the goals that you think the company can help you achieve. You score points if you leave the impression you are a growth-oriented person with realistic expectations. As a teenager, you may be working to earn spending money or to pay for a car and gas. That shows initiative and planning.

8. **What motivates you?**

   Challenge, creativity, success, opportunity and personal growth are most frequently mentioned. You can also mention specific skills that you are motivated to use, such as problem solving, decision-making, listening, writing and speaking, planning or counselling people.

9. **Why would you like to work for us?**

   This is a great opportunity to impress the interviewer with what you know about their organization. Talk about the positives of their organization.

10. **Why should I hire you?**

    This is a great opportunity to sell you. Talk about your strengths and how they fit the needs of the company. You can briefly talk about skills or strengths that haven't already been discussed. Watch the video *12-Why Should We Hire You How to Answer this Interview Question.mp4*

- **Unexpected questions:**

⇨ For example: “If you were an animal/song/etc, which one would you be? (and why???)
⇨ To answer unexpected questions, think about your strengths and take the question as an opportunity to say something you haven’t already said.
